Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 March 2007.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6 March 2007 has been entered.

Response to Amendment

2. Applicant's amended the claims as suggested by the examiner (advisory action mailed 9 February 2007). However, the rejection basis has not changed because the amendment is fact taught by the prior art of record. The examiner regrets that his after-final search was not more careful, and the present rejection is made non-final.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-3, 7, 8 and 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claims 1, 7 and 8 contain the follow improper Markush group (MPEP § 2173.05(h)I):

"the geographical factor being obtained from location designation information inputted by a user, information which represents a latitude and longitude of a position at which the information terminal is present and which is obtained from GPS (Global Positioning System)." (Claim 1 lines 5-8, and similarly in claims 7 and 8.)

This rejection can be overcome by replacing "a user, information" with -- a user or information --.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-3, 7, 8 and 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by ILCISIN (US 20020044067A1).

7. ILCISIN teaches (independent claims 1, 7 and 8) an advertisement posting system, a method of calculating an advertising cost and a computer readable record medium which stores said method in said system, the system comprising:

a geographic factor designation/acquisition unit (*geographical locating device 20*, para. [0021], [0022] and [0027]), the geographical factor being obtained from information which represents a latitude and longitude of a position at which the information terminal is present and which is obtained from GPS (para. [0058]-[0063]);

an advertisement cost calculating unit (billing information system 36, para. [0039]), calculating the cost of the advertisement in consideration of the geographical factor (para. [0009]); and

an advertisement posting unit (rendering system 24 para. [0032]).

For claims 7 and 8, a *set of billing log parameters* (para. [0039]) reads on a base cost calculation table.

8. The reference also teaches: claims 2, 3 and 15-17 at the citations given above and at para. [0047] and [0055]. For claims 3 and 17, the user's reported time at location reads on "user information".

Possibility of Allowable Subject Matter

9. None of the English-language prior art made of record teaches or suggests any of the kinds of "user information" disclosed at pp. 8-9 of the spec (which is generally called demographic information). Hence, the present rejection could be overcome by limiting the claims to one or more of these kinds of information. However, at least Owensby (US 20020077130A1) has been identified in a preliminary search as teaching demographic information and being combinable with ILCISIN. Hence the examiner is not sanguine that the instant invention is patentable.
10. Applicant is cautioned that an allowance could not be considered until this or any other amendment is thoroughly searched.

Conclusion

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald L Champagne whose telephone number is 571-272-6717. The examiner can normally be reached from 9:30 AM to 8 PM ET, Monday to Thursday. The examiner can also be contacted by e-mail at donald.champagne@uspto.gov, and *informal* fax communications (i.e., communications not to be made of record) may be sent directly to the examiner at 571-273-6717.
12. The examiner's supervisor, Eric Stamber can be reached on 571-272-6724. The fax phone number for all *formal* fax communications is 571-273-8300.
13. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
